

FACTS ON PREGNANCY

PREVENTION MYTHS

YOU CAN'T GET PREGNANT IF:

(THESE ARE MYTHS)

- It's your first time having sex*
- If you and you're partner are both virgins*
- If you have sex when the woman has period*
- If the man "pulls out" or does not ejaculate inside the woman*
- If you have sex while in water (pool, tub, hot tub)*
- If the woman douches or takes a shower/bath after sex*
- If both partners don't orgasm at the same time*
- If the woman jumps up and down after having sex*
- If the woman pushes on her belly button after sex*
- If the woman is on top during sex*
- If the woman takes an aspirin and drinks a coke after sex*
- If the girl makes herself sneeze for 15 minutes after having sex*
